P R E F A C E

The Directorate General of Commercial Intelligence & Statistics (DGCI&S) has been publishing various reports on Internal Trade Statistics on an annual basis. In this present edition in-depth information on shipping movement Statistics is provided. The publication came into being since April, 1965. The current issue of the publication titled as “Statistics of Foreign and Coastal Cargo Movement of India” attempts to update the knowledge in the area of Internal Trade.

In this publication data on ‘entry’ and ‘clearance’ of ships with Cargo and without Cargo at different ports in India are provided using various tables and graphs. Receiving data from Customs zone, Maritime Boards and Ports had been a challenge. This publication, thus, could provide data on only 44 Ports, including both ‘Major Ports’ and ‘Non-Major Ports’ out of a total of 77 such Indian Ports handling Cargoes.

For future, efforts are on to increase the coverage of data for this publication. I am hopeful that our efforts will prove immensely beneficial to our users, regular readers and subscribers.

However, comments and suggestions for improvement of forthcoming issues are welcome.

SUMMARY

This Publication contains Statistics on arrival and departure of ships with Cargo or as Ballast. The statistics of shipping on the foreign and coastal trade of India are based on the returns received from the Sea Ports, Customs Authorities and Maritime Boards of India.

FOREIGN TRADE			
ENTER		CLEAR	
CARGO	BALLAST	CARGO	BALLAST

Vessels involved in foreign trade are recorded as 'entry' on the voyages inwards at the first Indian port at which cargoes are discharged and as 'clearance' on the voyages outward at the last Indian port at which cargo is loaded. In other words, the inward foreign voyage ends at the first Indian port touched for discharging cargo. Similarly, the outward foreign voyage begins with departure from a port in India after loading cargo for some destination abroad without touching other Indian ports. However, if an Indian port is only a port of call in a voyage from or to a foreign port beyond India, the entry or clearance will be recorded as foreign trade

Inward voyages of a ship at a port from another Indian port and outward voyage to another Indian port is recorded as 'entry' and 'clearance' in coasting trade. Vessels clearing to or entering from a non-registered Indian port are also recorded in the coasting trade unless the port is only a port of call in a voyage from or to a foreign port.

COASTAL TRADE

The data regarding ships are provided in terms of number and tonnage of vessels. The tonnage is then net registered tonnage, i.e., the entire capacity of the vessels in terms of hundred cubic feet (i.e. gross tonnage) minus certain deduction for the space occupied by engines, crew's quarters etc.

OUTPUT

STATISTICS OF FOREIGN & COASTAL CARGO MOVEMENT OF INDIA

A NOTE ON THE CONCEPTS AND DEFINITION OF THE TERMS

Entry and Clearance of Ships in the Foreign Trade

Vessels in the foreign trade are recorded as entering on the inward voyages at the first Indian port at which cargo are discharged and as clearing on the voyages outward at the last Indian port at which cargo is loaded. In other words, the inward foreign voyage ends at the first Indian port touched for discharging cargo. Similarly, the outward foreign voyage begins with departure from a port in India after loading cargo for some destination abroad without touching other Indian ports. However, if an Indian port is only a port of calling a voyage from or to a foreign port beyond India, the entry or clearance will be recorded as in foreign trade.

A vessel bringing cargo from more than one foreign port is recorded as entering from the most distant port at which cargo for India was loaded. Conversely, a vessel with cargo departing from India for more than one foreign port is recorded as clearing for the most distant port at which cargo from India would be off-loaded. Vessels in 'Ballast' are recorded with regard to both entry and clearance in the same way as vessels with cargo.

Entry and Clearance of Ships in the Coasting Trade

Inward voyage of a ship at a port from another Indian port and outward voyage to another Indian port is recorded as entry and clearance in coasting trade. Vessels clearing to or entering from a non-registered Indian port are also recorded in the coasting trade unless the port is only a port of call in a voyage from or to a foreign port.

According to the above criteria, if on its inward voyage a ship coming from foreign port has already entered an Indian port to discharge only a part of its cargo and then proceeds to other port in India, its clearance from the first Indian port and entry at the subsequent Indian port(s), are recorded as movement in the coasting trade irrespective of where the ship is loaded with any cargo at the Indian port or not. Conversely, for a vessel on the voyage outwards loaded with part cargo for a foreign port and part for some other port or ports in India, its movement is recorded at the first port of departure as cleared for coasting trade and such vessel is again recorded as cleared for foreign trade at the last Indian port.

Source of Data

The statistics of shipping in the foreign and costal trade of India are based on the returns received from the Indian Ports, Indian Customs Zones and Indian Maritime Boards. Officers & officials from this office sometimes need to visit certain Custom houses as well as Ports to collect the required data and to seek some clarifications on data received. We received data from forty four (44) ports out of which six (6) ports have no transaction during this financial year.

The data regarding ships are provided in terms of number and tonnage of vessels movement in India. The tonnage is the net registered tonnage i.e. the entire capacity of the vessels in terms of hundred cubic feet (i.e. gross tonnage) minus certain deduction for the space occupied by engines, crew's quarters etc.

DATA COVERAGE OF THE PUBLICATION

In our country, there are 12 major and 200 non-major ports. However, 65 non-major ports out of 200 deal with the cargo along with all the major ports. 12 Major ports are under the administrative control of Ministry of Shipping whereas, 200 non-major ports are under the jurisdiction of respective State Maritime Boards/State Government. Out of 77 ports, data have been received from 44 ports names of which are shown in the table below;

SL No.	PORT	SL No.	PORT
1	ALIBAG	20	KRISHNAPATNAM
2	BEDI	21	MAGDALLA
3	BEYPORE	22	MORA

18	KOLKATA	37	VISAKHAPATANAM
19	KOLLAM	38	KARAIKAL

Bandra, Bhavnagar, Cuddalore, Dhamra, Dhanu and Panaji ports have no transaction.

Out of the 44 ports reported in the above table, 12 are 'major ports' and 32 are 'non-major ports'.

Since, this publication produces information on the Number and Net Registered Tonnage (NRT) of ships laden with Cargo or as Ballast and not on Commodities being carried in terms of either value or quantity, the under coverage of Data to that extent only has a bearing on under reporting of Numbers and NRT.
